May Sarton : Anger: A Novel before purchasing it in order to gauge whether or not it would be worth my time, and all praised Anger: A Novel:

9 of 9 people found the following review helpful. Not as good as her memoirs By Seahorse72I love this author, but I was a bit disappointed with this one. Her main characters came across the page to me as being very shallow. There are great one-liners in this book. Many times there are references to wonderfully thought-provoking situations worded in a way that makes one think about the world a bit differently. It's worth the read, but not one of my favorites. 0 of 0 people found the following review helpful. At the heart of it By PC says keep reading May Sarton knows how to get to

the heart of any relationship, and build the layers in a way that makes the characters so true to life. And this is not my favorite of her novels. PC0 of 2 people found the following review helpful. My order By Ann Thomas I had no problems or complaints with the order and have nothing to say at this time. That is all.

The marriage of Ned Fraser, a Boston banker, and Anna Lindstrom, a singer on the brink of fame, is a battlefield of opposing temperaments. Emotional and forthright, Anna battles against Ned's crippling reserve. In the clash of these two strong personalities, May Sarton explores the different ways that men and women express both anger and love.

An amazing novel. . . . It ventures into new territory and opens fresh vistas into character and temperament. - Cleveland Plain Dealer About the Author May Sarton (1912-1995) was an acclaimed poet, novelist, and memoirist.
