French design company La Cabane Perche presents 40 extraordinary treehouses designed and built by the acclaimed team. Featuring houses in France, Switzerland, Belgium, Denmark, Russia, Italy, Spain, and the United States, Dream Treehouses showcases both exterior and interior images of each house. In addition, the book includes watercolor design drawings and descriptions of how each house was envisioned and built, offering a beautifully and extensively

illustrated look into some of the most fantastic treehouses ever created.

About the Author Alain Laurens founded La Cabane Perche in 2000 with watercolor artist Daniel Dufour, who imagines and designs the tree houses, and journeyman carpenter Ghislain Andr, who builds them with a team of carpenters and woodworkers. To date, La Cabane Perche has constructed nearly 350 treehouses around the world, many of which are showcased in *Exceptional Treehouses* and *Treehouse Living*. Jacques Delacroix is an architecture, design, and fashion photographer whose work is also featured in *Exceptional Treehouses*.
