Schiffer Publishing Ltd : Early 20th Century Lighting: Electric and Gas (Schiffer Book for Collectors) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Early 20th Century Lighting: Electric and Gas (Schiffer Book for Collectors):

3 of 3 people found the following review helpful. no gas fixtures here By M. Miller The title says there are gas and gas/electric fixtures here. there are none. Wish I had seen the review above before purchasing. Big disappointment. It is simply a photocopied catalogue without text. Claimed to be from early 20th century, but clearly from 1910-1920. Look elsewhere.... 4 of 4 people found the following review helpful. Misleading Title - Beware! By Gary Kleiner Even though the title indicates Electric and Gas fixtures and the forward leads you to expect gas, electric and electric/gas combination fixtures, THERE ARE NO GAS FIXTURES IN THIS BOOK. I emailed the publisher about this and have

gotten no response.GK

Admirers of elegant period lighting are growing in numbers as the beauty and atmosphere these fixtures provide are appreciated in today's world. This reproduction of an early twentieth century catalog from the Beardslee Chandelier Manufacturing Company of Chicago, Illinois, illustrates and describes hundreds of gas and electric lighting fixtures for both indoor and outdoor use. Chandeliers and other hanging lamps, ornately decorated table lamps, desk lamps, glass shades, and lighting accessories are presented with original wholesale prices, measurements, and reference numbers. In addition, current values for all items reflect today's market.
