Alain Laurens, La Cabane Perche, Ghislain Andr : Exceptional Treehouses before purchasing it in order to gauge whether or not it would be worth my time, and all praised Exceptional Treehouses:

0 of 0 people found the following review helpful. Lots of great photos
By A Customer This book has many great photos as well as nice short descriptions of each project. Because it is a collection of one company's work the style and building techniques are similar in all the projects. It is interesting to see how they applied their style to many different situations. The design drawings at the end are quite charming.
0 of 0 people found the following review helpful. Five Stars
By Amanda A fun and fanciful book that makes a perfect addition to any treehouse coffee table ;)
2 of 2 people found the following review helpful. Wow!
By Liquid_Sunshine This book is amazing because it shows so many different styles of treehouses and from many angles and at different times of year. The back of the book shows

blueprints and the architects give you the details of how it came to be. I think the most special part is that no tree was harmed because not a single nail was driven into the bark.

In *Exceptional Treehouses*, author and treehouse builder Alain Laurens reveals 30 gorgeous treehouse structures, 25 of which are entirely new creations, all illustrated with Daniel Dufours beautiful watercolors as well as photographs by Jacques Delacroix, commissioned specially for this book.

About the Author Alain Laurens worked for 25 years in the advertising business; he left his position as the president of an ad agency to found La Cabane Perche, inspired by *The Baron in the Trees*, by Italo Calvino. To date, his firm has built 120 treehouses in France, Switzerland, Belgium, Italy, Spain, and Portugal.
