Meg Mateo Iasco : The Space Planner: A Home Decorating Design Workbook before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Space Planner: A Home Decorating Design Workbook:

6 of 6 people found the following review helpful. Larger scale would be much better. By Claire This is a very complete space planner, templates for all sizes and shapes of furniture, and quite a bit of advice on space planning. However, the scale used was just too small for comfortable use. I ended up using my own larger scale graph paper and made my own larger templates, which is what I've done for years. None of the space planners available use a large enough scale in my opinion. But this is a very complete book and guide -- providing you have 20-20 vision. 0 of 0 people found the following review helpful. Three Stars By bonnie l bernardo expected more, not sure what but just more 0 of 0 people found the following review helpful. AS the DR ordered By Joseph D. Wife is an educator. This is a product that she needed for one of her classes. We ordered it, they shipped it ASAP. WIN WIN, but not according to the students.

Whether giving a current surrounding a makeover, or starting fresh in a new place, The Space Planner helps do-it-yourself home decorators identify the right design approach for the home. With an in-depth introduction and sections for each room in the house, this interactive journal provides the tools needed to turn an ordinary room into a haven that reflects both individual style and needs. Map out a room design on one of the included laminated grids, rearrange it until something clicks and then get to work making that vision a reality! Includes: - Design tips and guidance - Sections for bedrooms, baths, kitchen, dining room, living room, family room, and office - Lifestyle questionnaire and

budget worksheet for each room - Graph and note paper - Over 300 vinyl furniture stickers - Laminated grid pages - Pocket for inspirational photos and articles

About the AuthorMeg Ilasco was studying architecture when she started designing wedding invitations on the side, but the demand for her distinctive designs was so great that she eventually made paper her construction material of choice.
