Richard Cavendish : The Tarot before purchasing it in order to gage whether or not it would be worth my time, and all praised The Tarot:

4 of 4 people found the following review helpful. Amazing bookBy Carolina ZagolIf you are a Tarot beginner or long time Tarot student, this book will be more that worthy. It's a book for learning the origins of the Tarot, the different Tarot decks, and the most important people in the world of the Tarot. It's a book for keeping along your life.2 of 2 people found the following review helpful. One of the best ever written on the subjectBy Philip LaneOutstanding book !!!!! One of the best ever written on the subject.8 of 8 people found the following review helpful. No. 1 for ResearchBy Raven TempestThere are a number of well written books by acknowledged scholars on the subject of the TAROT. I have read many of them. I have purchased a few of them. Richard Cavendish is THE definitive writer on this subject in my opinion. I have collected and carefully guard all the materials I have found written by this author. I am more than impressed, I am totally devoted to his presentation of facts, traditions and commentary on this subject most dear to my own heart. He's not just good. He's great!

A compendium of information on the Tarot including its origin, myths and facts about the Tarot. There are clear instructions on how to lay out and read the cards and their significance in magic, meditation and divination.
